Acres can help with rescue of wild animals

By Andrea Kwan

I refer to the picture captioned "Coil Foil" showing a python captured in Kaki Bukit (The New Paper, 28 Oct).

Acres would like to draw attention to our 24-hour Wildlife Rescue Hotline – 97837782.

In cases where wild animals need to be moved or are found injured, Acres can be called upon to render assistance.

In addition, at our dedicated wildlife rescue facility, the Acres Wildlife Rescue Centre, we are able to take in rescued reptiles and amphibians in need of care.
